performed by the independent auditor of the entity as adopted by the resolution of the National Council of Statutory Auditors. A review of semi-annual financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures.

A review is substantially less in scope than an audit conducted in accordance with National Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying semi-annual condensed consolidated financial statements are not prepared, in all material respects, in accordance with International Accounting Standard 34 Interim Financial Reporting as adopted by the European Union.
